Solid wood tables and benches

Solid oak wood from all over Europe is used to make the table. The natural features and the origin of the woods provide a varied look.

These tables are unique pieces which are manufactured by hand. Cracks, pressure marks, knots, holes and colour differences are positive features and make the tables unique.

Solid oak
The surface is stained on a hydro basis.

..... K - whitewashed / lacquered

..... B - bassano / lacquered

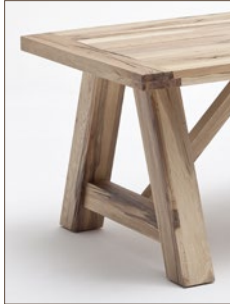

..... V - aged / lacquered

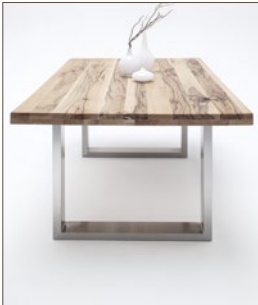

..... W - wild oak / lacquered
