

Designer: Centro Studi Interno

Structure: pinewood, multilayer, plywood and masonite covered with polyurethane foam

Spring system: elastic webbing

Seat Padding: seat cushions with pocket springs encased in polyurethane foam, covered with 100% ecological polyester padding.

Back Padding: headrest in ecological polyurethane foam, covered with 100% polyester padding. Lumbar support in fiber (synthetic fiberfill).

Arm Interior: arm interiors in ecological polyurethane foam covered with 100% polyester padding.

Removability: not available

Sewing: covers are feasible with tone-on-tone stitching or, upon request, with contrast stitching in the colors available. Cuts and sewing on leather covers differ from cuts and sewing on fabric covers.

Mechanisms: "ELECTRIC RECLINER COMFORT" versions feature a dual-motorized headrest, offering both vertical lift and angle adjustment for optimal positioning, along with an adjustable lumbar support and a reclining mechanism. All functions can be operated independently through a control panel located on armrest sides and on the sides of the seat for armless versions (PUL M5).

The maximum height of the model with lifted headrests is 105 cm, while the maximum depth of the fully extended recliner is 168 cm.

It is recommended to maintain a minimum distance of 20 cm between the sofa and the wall to ensure the headrest operates correctly.

Components: the control panel is equipped with a "USB-C" port to connect and charge electronic devices. A reset button facilitates the return to the initial position.

Standard feet: PVC H: 4 cm

Density of seat and back kg/cbm (±5%) ⁽¹⁾

Markets	Seat	Back
I	30+molle Medium HR	28 HR
D - NL - CH	30+molle hard HR	28 hard HR
USA - California	30+molle soft HR	28 soft HR
GB	37+molle fire retardant	30 fire retardant
Others	30+molle Medium HR	28 HR

⁽¹⁾Density: volume mass apparently determined on materials without any kind of covers and according to the UNI EN ISO 845 regulations. Indicated values refer to production averages; the Company reserves the right, if needed, to make changes to the declared technical characteristics. Before use, it is advisable to look at the SAFETY INFORMATION TECHNIQUE for info regarding use and protection of people and of the environment, in compliance with existing EEC regulations.

We reserve the right to amend materials, covers and product dimensions shown on the data sheet, for production purposes and without prior notice. The line drawings, graphic information, dimensions, and volume provided are approximate and may vary due to the tolerances allowed in the production process with a view to improvements. The following maximum load values are recommended under normal use: armchairs max. 120 kg, 2-seater sofas max. 200 kg (2x100 kg), 3-seater sofas max. 240 kg (3x80 kg). Exceeding the recommended load may cause a structural failure of the sofa/armchair or its components.
