Model Code E8952

date of issue 24-07-25 revision 00
revision of 10-09-25 (the present replaces any previous versions)

Designer: Centro Studi Interno

Structure: pinewood, multilayer, plywood and masonite covered with polyurethane foam.

Spring system: elastic webbing

Seat Padding: seat cushions with pocket springs encased in polyurethane foam, covered with 100% ecological polyester padding.

Back Padding: headrests in ecological polyurethane foam covered with 100% polyester padding.
Lumbar support cushion in synthetic fiberfill.

Arm Interior: armrests in ecological polyurethane foam covered with 100% polyester padding.

Removability: not available

Sewing: covers are feasible with tone-on-tone stitching or, upon request, with contrast stitching in the colors available. Cuts and sewing on leather covers differ from cuts and sewing on fabric covers.

Mechanisms: "ELECTRIC RECLINER COMFORT" versions are equipped with a dual-motor headrest that offers both vertical lift and tilt adjustment for personalized comfort. They also include adjustable lumbar support and a reclining mechanism with a footrest designed to lift higher than standard models.

All functions can be operated independently via a control panel located on the side of the armrest, or on the side of the seat for armless versions (PUL M5).

The maximum height of the model with the headrest fully raised is 105 cm, while the maximum depth in the fully reclined position is 168 cm.

It is recommended to place the sofa at least 20 cm away from the wall to ensure proper headrest operation.

Components: the push-button control includes a USB-C port for connecting and charging electronic devices. A reset button allows for an easy return to the original position.

Standard feet: PM2330, 13 cm high, in matte black metal. Some versions may feature hidden structural feet for added support.

We reserve the right to amend materials, covers and product dimensions shown on the data sheet, for production purposes and without prior notice. The line drawings, graphic information, dimensions, and volume provided are approximate and may vary due to the tolerances allowed in the production process with a view to improvements. The following maximum load values are recommended under normal use: armchairs max. 120 kg, 2-seater sofas max. 200 kg (2x100 kg), 3-seater sofas max. 240 kg (3x80 kg). Exceeding the recommended load may cause a structural failure of the sofa/armchair or its components.

Density of seat and back kg/cbm (±5%) ⁽¹⁾

Markets	Seat	Back
I	30 + molle Medium HR	pog testa in 28 HR
D - NL - CH	30 sostenuto +molle hard HR	pog testa in 28 sost hard HR
USA - California	30 + molle soft HR	pog testa in 28 soft HR
GB	37 +molle fire retardant	pog testa in 30 fire retardant
Others	30 + molle Medium HR	pog testa in 28 HR

⁽¹⁾Density: volume mass apparently determined on materials without any kind of covers and according to the UNI EN ISO 849 regulations. Indicated values refer to production averages; the Company reserves the right, if needed, to make changes to the declared technical characteristics. Before use, it is advisable to look at the SAFETY INFORMATION TECHNIQUE for info regarding Coverings of people and of the environment, in compliance with existing EEC regulations.
